

# WORLD IMMUNISATION WEEK

World Immunization Week is a global public health campaign to raise awareness and increase rates of immunization against vaccine-preventable diseases around the world. It takes place each year during the last week of April (24th - 30th).

Immunization saves millions of lives every year and is widely recognized as one of the world's most successful health interventions

## **Covid19, Flu and Pneumonia.**

Three important vaccinations for respiratory well-being are those for Covid19, Influenza(flu) and Pneumonia.

Getting a vaccination can help prevent the infection or reduce the severity of the illness.

Speak to Evergreen Health about getting these vaccinations in the comfort of your village.

**Vaccinations save lives!**
