

Date: Friday, 29 July
Transport departs at 09:15
Price: R200.00
Book at reception

The tour will be guided by SANCCOB's Educator, who will show the group what happens behind the scenes of day-to-day operations when rehabilitating endangered African penguins and a variety of southern African seabirds.

The tour includes the viewing of feeding time for resident Home Pen African penguins; always a favourite part for every visitor. After the tour, we will share a 10-minute overview of our organisation's conservation impact while your group enjoys their beverages and cake treats.
