Dear Resident,

VILLAGE GARDENS

Please note that the village gardens in the common areas are taken care of by the contracted gardening service, Whitecliffs. They provide the village with three gardeners who have been employed to weed, mow lawns, trim shrubs in the common area and generally keep the village gardens neat and tidy.

When their focus is redirected to attend to private work they do not have sufficient time to do their jobs in the village.

To address this matter, Whitecliffs have agreed an additional gardener to provide to work with resident's in their private gardens at a fee of R80 per hour.

Please phone reception to book a slot for the gardening service and to schedule a time that would suit you.

Kind Regards

CHRISTINE DEMPERS
Village Manager: Muizenberg
