

Circular 017/2024

20 May 2024

Dear Resident

DQ98 Medical Assessments

The time has come to carry out the annual DQ98 medical assessment, mandated by the Department of Social Development under the Older Person's Act of 2006.

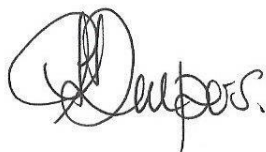

The DQ98 form is a screening tool required for those who have purchased a Life Right agreement and this assessment must be updated annually.

The aim of this assessment is to determine any changes in your medical condition over the last year and to update your medical records accordingly. This will enable both you and the village team to identify and address any potential health risks. We also use it to update your personal and medical emergency /contact details.

Nurse Sharon Adams from Evergreen Health has begun conducting these assessments at Muizenberg Village and appointments are being scheduled on a regular basis.

We kindly ask for your cooperation. If you have any questions, please do not hesitate to contact me.

Yours sincerely,

Christine Dempers
Village Manager
