

1. I was given a conducted tour by Aashiq, maintenance manager, of the main areas of his field. This included: the electric standby generator, the subterranean water pumps, hot water generation and refuse disposal. All systems were working well.
2. I reported some defective passage lights for checking.
3. Attention to the leaking roof repairs has not yet commenced.
4. Painting team are refurbishing vacant cottages and apartments.
5. I have heard report of faulty irrigation installations, but have not yet investigated.

John Higgs.
