

24 August 2026

Dear Residents,

EVERGREEN MUIZENBERG RESCOM – 2026/2027

The Rescom plays an important role in helping to build a welcoming, connected and vibrant community within the Village. Working alongside Village Management and the residents, Rescom helps create an environment where Residents feel supported, included and part of the wider Village community. The Rescom's role includes:

Being a bridge between residents and management – sharing ideas, suggestions and feedback with the Village Manager to help enhance the Village experience.

Welcoming new residents – helping new Life Right Holders settle in, become familiar with the Village and discover the facilities, services and activities available to them.

Building community and connection – encouraging and supporting social, recreational, sporting, cultural and entertainment activities that bring residents together.

Encouraging companionship and neighbourliness – helping foster a caring community where residents look out for and support one another, particularly when someone may need a little extra assistance or companionship.

Supporting ideas and initiatives – working with Village Management to consider resident ideas and suggestions that could further enhance the lifestyle and facilities within the Village.

Supporting a positive Village environment – working collaboratively with management and residents to help maintain the welcoming, friendly and enjoyable lifestyle that is central to the Evergreen experience.

Rescom is a consultative and supportive committee, working in partnership with Village Management. Individual complaints or personal matters should continue to be addressed directly with the Village Management in the first instance, with Rescom becoming involved where appropriate to assist in finding a constructive and mutually agreeable way forward.

Congratulations to **Dee Moon, Hugh Till, Laubi Walters, Rod Stewart and Toni Joubert** will be serving on the Rescom. We look forward to constructive and mutually beneficial relationship in the year ahead.

Best wishes,

Riaan Gouws
General Manager
